SS GLOBAL COMMODITIES

FEED INGREDIENTS & COMMODITIES

Finding the right fit, anywhere in the world.

SS Global Commodities is a business-to-business commodities company. We fulfil requirements for both buyers and sellers, across animal feed ingredients and commercial commodities.

BUYERS & SUPPLIERS

WHO WE ARE

Solutions architects, not a fixed shelf.

SS Global Commodities was founded in 2025 and is headquartered in Toronto, Canada, with a regional office in Colombo, Sri Lanka. We are solutions architects, fixers and consultants. Rather than selling from a fixed list, we start with the requirement and find the right fit: the right product, the right counterparty and the right way to make the deal work.

We work with buyers and with sellers, anywhere in the world, and we stay flexible on the details because every requirement is different.

For Buyers

Tell us what you need, how much, and where it has to go. We find a supply route that fits and come back with a quotation.

For Suppliers

If you produce or hold stock, we introduce it to buyers who need it, and help shape the deal around your capacity and terms.

Flexible by Design

Volumes, packaging, destinations and terms are agreed case by case, and shaped around the requirement instead of a template.

Our network is our edge

Our network spans the world and reaches into powerful, influential circles. It is built on long-standing relationships and trust, and it is how we find the right counterparty for a requirement.

We handle every enquiry with discretion. We do not publicise our client list; references are available on request.

OUR STORY

Built on relationships.

SS Global Commodities is new as a company, but the work is not. Our founder, Sumanthan Selvarajah, has been doing this for many years, for the love of it. He grew up watching his father do this work, and it became part of him.

People are the common thread. Long-standing relationships, built on trust, are what make the right deal possible, and they are what we bring to every requirement.

LEADERSHIP

The team.

Sumanthan Selvarajah

FOUNDER & MANAGING DIRECTOR

Leads the company and its global relationships. Learn more at sumanthan.com.
